Mangrove plantation in Majunga, April 2024

350 trees planted

In this 0.8 hectare plot on community owned land, 5669 mangrove seedlings were planted in April 2024. The overall objective of this mangrove restoration project is to restore degraded lands and promote better management of the mangrove ecosystem to improve the living conditions of the local communities. The project consists of restoring 400ha of degraded land by planting 4 million mangroves before the end of 2027.
