Reforestation in Ingung Kapia (DRC), 2025-2026

 105 trees planted

In Ingung Kapia, in the Democratic Republic of Congo, we plant native tree species on degraded soils to restore biodiversity and create meaningful employment for local communities through manual planting work. Our reforestation program has taken on the challenge of restoring the natural environment and preventing further desertification of the region. Looking ahead, our long-term vision includes well-considered forest management, designed to relieve pressure on DR Congo's precious old-growth jungle. Our planting target is 1,000 trees per hectare at survival, achieved by initially planting 1,250 trees per hectare to account for natural loss. The species mix is intentionally diverse, combining native forest trees to support soil recovery and ecological resilience. The full list of species planted includes: *Millettia laurentii* (Wenge) *Cassia siamea* & *Cassia floribunda* *Pentaclethra macrophylla* (Owes) *Piptodeniastrium africanum* (Osing) *Hevea brasiliensis* *Uapaca mole* (Ontang) *Canarium schweinfurtii* (Mbidi) *Prioria balsamifera* (Mwana Mpembe) *Ricinodendron heudelotii* (Ongiel) *Erythrophleum gabonensis* (Onkok) *Guibourtia demeusei* (Ladzum) *Paramacrolobium coelucum* (Obwar Osur) *Prioria oxyphylla* (Tshitola) *Pterocarpus soyauxii* (Padouk) *Ceiba pentandra* (Obel) *Milicia excelsa* (Mulundu) *Leplaea cedrata* *Pachira aquatica* (Nguba Mindele) *Staudtia kamerunensis* *Ongokea gore* (Ndeke) *Acacia auriculiformis* *Acacia mangium* *Maesopsis eminii* *Gilbertiodendron dewevrei* (Labong) *Dacryodes normandii* *Celtis tessmannii* *Pycnanthus angolensis* *Nauclea diderrichii* *Pericopsis elata* (Afromosia) *Millettia drastica* *Coffea arabica* & *Coffea robusta* *Autranella congolensis* *Entandrophragma gabonense* (Tiama Blanc) *Khaya grandifoliola* *Treulia africana* *Combretum welwitschii* *Azelia bipindensis* *Millettia versicolor* (Ablo) *Olong Obol Mbem Dileka* *Nkokoking* The full reforestation plot spans 38 hectares. We are working hard to secure the funding needed to complete this plot and continue our commitment to large-scale forest restoration across the region.
