Mangrove plantation in Majunga, December 2024

 70 trees planted

On two sites (1.18 ha & 2.59 ha), in the Bombetoka Bay located in the North-West of Madagascar, more specifically in the village of Maromiandra (Boanamary municipality, Boeny), we're planting new mangrove trees to restore the mangrove forest. In December 2024, 19720 mangrove trees of one species was planted here: *Ceriops tagal*. The overall objective is to restore degraded lands and promote better management of the mangrove ecosystem to improve the living conditions of the local communities. Moreover, the mangroves provide spawning grounds for shrimps, crabs, and fish, which helps to boost the economy of the community.
