Mangrove plantation in Majunga, March 2026

 700 trees planted

In the Bombetoka Bay located in the North-West of Madagascar, more specifically in the village of Nosy Kabija (Belobaka municipality, Boeny), we've planted new mangrove trees on two sites (0.29 ha & 0.45 ha) to restore the mangrove forest. In March 2026, 5055 mangrove trees of two species were planted here: *Ceriops tagal* and *Rhizophora mucronata*. The overall objective is to restore degraded lands and promote better management of the mangrove ecosystem to improve the living conditions of the local communities. Moreover, the mangroves provide spawning grounds for shrimps, crabs, and fish, which helps to boost the economy of the community.

Mangrove plantation in Majunga, December 2024

 1000 trees planted

On two sites (1.18 ha & 2.59 ha), in the Bombetoka Bay located in the North-West of Madagascar, more specifically in the village of Maromiandra (Boanamary municipality, Boeny), we're planting new mangrove trees to restore the mangrove forest. In December 2024, 19720 mangrove trees of one species was planted here: *Ceriops tagal*. The overall objective is to restore degraded lands and promote better management of the mangrove ecosystem to improve the living conditions of the local communities. Moreover, the mangroves provide spawning grounds for shrimps, crabs, and fish, which helps to boost the economy of the community.

Mangrove plantation in Majunga, December 2025

 563 trees planted

In the Bombetoka Bay located in the North-West of Madagascar, more specifically in the village of Nosy Kabija (Belobaka municipality, Boeny), we've planted new mangrove trees on a site of 2.6 ha to restore the mangrove forest. In December 2025, 8892 mangrove trees of two species were planted here: *Ceriops tagal* and *Rhizophora mucronata*. The overall objective is to restore degraded lands and promote better management of the mangrove ecosystem to improve the living conditions of the local communities. Moreover, the mangroves provide spawning grounds for shrimps, crabs, and fish, which helps to boost the economy of the community.

Care for communities
